MELANCHOLY MUSINGS.

BY N. C. BROOKS.

Al! who e'er dreamed, when on life's flowers,

All fresh and fragrant, lightly pressed

The velvet footfall of the Hours,

And joy and hope each vision blest,

That sorrows, such as press me now,

Would shroud the darkened heart and brow.

Though friendship, when our sky is light,

In beauty o'er our pathway bends,

As clouds gleam beautiful and bright

When tinged with sunshine—faithless friends,

E'en like the summer clouds—are gone—

When darkness and the storm come on.

And love—that incense so divine

Of the fond breast in guileless youth,

Flams oft at some uxorius shrine,

And they who trust to blighted truth,

Lean on a reed that soon may part,

And send its shivers through the heart.

And, *same* for which we spend our breath,

Is but a meteor of the mind

That lures us on to toil and death,

And her successful votaries find

Hato's poisoned flowers amid the chain

Of rose's wreathed around the brain.

For envy's eye and slander's tongue

Must lay the aspiring spirit low,

Although the innocent and young

Be more than orphaned by the blow,

And for a Mother's honored name,

Be left a heritage of shame.

Joy's fount has long since been dried up;

My soul, by care and sorrow riven,

Turns, as I drain life's bitter cup,

From heartless men to righteous heaven;

Andoh! I long on earth's soft breast

To lay my weary head and rest.

A GOOD STORY.

One seldom hears a good story now-a-days; the following is not bad:

"A few days ago, there came to the Lion

Inn, at —, a pleasant looking, bustling,

great-coated, commercial traveller sort of a

body.

"Well landlord, what have you got?

Rump steak; eh? oyster soup, eh? bottle

of sherry, good, eh?—scnd 'em up."

Dinner was served, wine was despatched,

and a glass of brandy and water comforta-

bly settled the dinner.

"Waiter," said the traveller, coolly and

dispassionately wiping his mouth with a

napkin, "waiter, I am awkwardly situat-

ed."

"Sir," said the waiter, expecting a love

letter.

"I cannot pay you."

"Sorry for that, sir—I must call my mas-

ter."

[Enter landlord.]

"My good sir, you see this is rather awk-

ward; good dinner! capital dinner! famous

wine! glorious grog! but no cash."

The landlord looked blank.

"Pay next time—often gone this road—

do nothing to-day—good house yours—a

good deal in the bill way."

"No difference to you, of course! pleas-

ant house this—plenty of business—happy

to take, your order—good credit—good

bills."

"There is my bill, sir—prompt payment

—pay as I go."

"Ah, but you must go without paying.

Let us see; 17s and 6d. Let us have a

pint of sherry together; make it up to a

pound; that will square it."

"Sir, I say you are a swindler, sir! I will

produce lights like that, casting their splen-

dor from one verge of heaven to the other

"Sir, I tell you I will call and pay you in three weeks, from this time, exactly—for I shall have to pass this road again."

"None of that, sir; it won't do with me; pay me my money, or I'll kick you out."

Where shall we find sounds so magnificent, so grand, rolling along the whole vault from the zenith to the horizon? Yet there are few persons who view a thunder storm with the same feelings; and indeed the difference of human character is tried by scarcely any thing more finely than by the sensations produced upon the mind by that phenomenon. There are many who are terrified, and that terror may proceed from a thousand other causes than mere mental weakness. There are some who have been taught fear irremediablely in their youth. There are some scarcely afraid, but awestruck and overpowered. There are others who have neither fear, nor awe, nor admiration,—the dull fabric of whose minds is incapable of any one sensation. There are some who do more, and admire it simply for its grandeur; there are others who do so likewise, but go far beyond; who combine with vision of bright things, who hear tongues like those of angels in the voice of thunder, and who gaze upon the lightning, lighted by its splendor, to visions of Almighty power and majesty.

NEWPORT DAILY NEWS.

FRIDAY, OCTOBER 2, 1846.

THE WAR.—It seems to be the determination of our Government, now, to prosecute the war against Mexico, with the utmost vigor. The season has become cooler, and, of course, the country is more healthily, and the Army can march without suffering so much fatigue, and incurring the danger which they would have done, a few weeks ago. All the troops of the Eastern Division of the Army, have been ordered, forthwith, to Mexico, leaving only a Corps of Guards at each military post on the frontier; these will embark in a few days. From the last accounts received, Gen. Taylor had left Camargo, and had marched half the distance to Monterey. It was also well authenticated that Gen. Ampudia, with from six to ten thousand Mexican troops, had reached the latter place, and put it in a complete state of defense. Gen. Taylor has about six thousand troops with him, and, in all human probability, he has reached Monterey ere this; hence, we may soon look for accounts of a severe engagement between the two Armies. The Americans are in good spirits, and will be cheered by the recollection of their glorious victories at Palo Alto and Resaca de la Palma, and they will fight to the last; the Mexicans are mortified and exasperated by the terrible defeat which they sustained on both those memorable occasions; and, consequently, they will do their utmost to retrieve their reputation, and repel our Army, if it is possible. All things considered, we may look for very important news soon, and if we are not very much mistaken, new laurels will be added to the American Flag, and we shall have another evidence of the invincibility of American soldiers.

—We are having most delightful weather now.

Professor Tew continues to attract large and very intelligent audiences, to hear his lectures on Phrenology and Magnetism; his lectures to the ladies, at Franklin Hall, next north of the Custom house, every other afternoon, are free.

—We obtain our English news from the New York *Herald Extra*.

ARRIVAL OF THE GREAT WESTERN. ONE WEEK LATER FROM EUROPE.

The favorite steamship Great Western, Capt. Matthews, arrived at New York from Liverpool, on Wednesday, at 1 o'clock P. M., whence she sailed on the 12th inst.

She met with a severe gale on the 20th and 21st.

Notwithstanding the delay of the Great Western, we are rejoiced to learn in the words of our informant, "that although she encountered a storm by which she is a little disabled, which retarded her passage, she is as staunch as ever, and will sail on the day advertised."

Business continues to improve in England.

Indian corn was increasing in value.

The Cotton Market continued steady. There is, indeed, an upward tendency.

The Grain Markets were on the rise.

Among the names of the passengers by the Great Western, we notice the names of Sivori, the anxiously expected violinist, Gen. T. F. Flomay, Mr. Ferrier, late Mayor of Montreal, with his family, Rev. Dr. Scott, and Capt. Corbit of the British Army. There was 126 in all.

Lord Metcalf, late Governor of Montreal, is dead.

The accounts from India are painfully distressing. The cholera—that scourge of the human race—is sweeping all before it in Sindie.

The correspondent of a London paper, writing from the East, intimates that the warlike Afghans are being stirred into commotion against the British power by the Shah of Persia, and they have put the projected movement upon this issue; if he will furnish the cash, they will furnish the troops.

O'Connell has gone to Derrynane, and there will be a full at Conciliation-hall. In his last speech at that popular gathering-place, he dilated on the failure of the potato crop, and promised the people plenty of food and work if they kept quiet—if they did not violate the law. He estimates the expense of feeding the people until the next harvest, at fifty millions of dollars, which sum, he estimates, the government is ready to advance, if the necessity arise.

THE OVERLAND MAIL.—Advices in anticipation of the Overland Mail reached London on the 4th inst. The dates are Bombay, July 18th, Calcutta, July 7th, and Delhi, July 7th. No accounts have been received from China of a later date than those published in our last paper.

The cholera had lessened its ravages at Kurrachee, where it destroyed several thousand persons, during ten days. The troops had lost about a fourth of their number. Every praise was bestowed upon Sir Charles Napier for his kindness and attention to the sufferers. Only two officers had died, namely, Capt. J. B. Seton, of the Bombay Fusiliers, and Lieut. Dawson, of the 12th regiment of Native Infantry.

There is nothing else particularly new or interesting from Europe, or other parts of the world.

—As we were wending our way home, last Wednesday night, we heard some gallant youths attempting to serenade a young lady; but the effort was truly distressing to a nervous system, which is in no better order than ours. If the lady was able to hear them through, she must indeed possess a forgiving spirit. However, it is an amiable

weakness in all ladies, to be exceedingly fond of attention. If there is any one thing in this life, which fully gratifies a lady's unbounded ambition, it is to attract a crowd of admirers around her, and eclipse all her competitors.

—Goff has received a very large supply of new books; and he has also made a new arrangement for the reception of the City daily papers. See his advertisement in another column.

GRAND MAGNETIC CONCERT.—Professor Tew will give a Grand Magnetic Concert, at Franklin Hall, next north of the Custom House, THIS EVENING. The subjects of Professor Tew will be placed in the *Magnetic Sleep*, and made to discourse eloquent music, by the excitement of the several musical organs of the brain. The parties, both male and female, will instruct each other, *by sympathy*, while in the Magnetic state. The Concert will commence at half past 7 o'clock. This is something entirely new, and will attract a large audience; go early, if you want to secure a seat.

Bogie's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known SOLELY to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture, never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imports to it a darker color, and the free use of it, both on the skin, and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, suiting to preserve its place, whether plain or in curl.

When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. HOGLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

DR. BANNING'S PATENT LACE.

An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griscom of New York, the Faculty of Pittsburgh, Bradford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

Middletown, June, 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and lungs in May, 1838, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from any physicians, and all medicines recommended to me, that my case was hopeless.

Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; a cough and expectoration greatly lessened, my Embs which were exceedingly painful have become useful, so that I can walk comfortably.

I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.

Yours, &c. Wm. RANNEY.

Middleton, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief.

Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight in the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.

Aug. 29th. STEPHEN BROOKS, JR.

PROVIDENCE, Feb. 26, 1816.

Doctor Boardman.—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write.

But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well-wisher.

LORRAINE'S PILLS.

All persons require Pills.

DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The intensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THE THEORY is, that one blood beats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce, in the most public manner that they have been cured of long standing complaints—after another medicines had failed. In act there can be no doubt but that Lorraine's vegetable Pill is the best medicine ever offered to the public.

See a few public statements of men of truth and virtue.

Lynn, Dec. 17th, 1843.

Sir:—I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood, I think they stand unrivaled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully,

J. E. F. MARSH.

Portland, Me., Nov. 7th, 1843.

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.

Yours respectfully, E. MASON.

Chelsea, Jan. 3d, 1844.

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston, and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

Yours respectfully, W. M. HALSTAL.

OPINION OF A SKILFUL PHYSICIAN.

Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting.

On this account, they are more than 100 per cent, cheaper, as physic, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Bather from all others. This extraordinary medicine has actually done Wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

From the Brooklyn Daily Advertiser.

AN BEAUTIFUL YOUNG LADY residing in W. street in this city, has received great and unexpected benefit from the use of that excellent specific RADWAY'S CHINESE MEDICATED SOAP. Some few weeks since she was on a visit to some of her relatives in South New Jersey, where she was very severely bitten by inquitoes, being at the same time very much exposed to the scorching rays of the Sun, she experienced great pain, and irritation from the effects of the mosquito, and much annoyance from the unnatural darkness of her tanned complexion. We recommended her to use that excellent Medicated Compound, RADWAY'S CHINESE MEDICATED SOAP, she complied with our request, and in three days there was not a single spot, blemish, pimple or blotch left upon her skin, and her complexion is now as fair as the lily.

Ladies, secure without delay a cake of this estimable Soap, it will purify your skin, improve your complexion, and remove all disfigurements entirely from the surface of your system. Price 12-12 cents per cake. Sold in Newport by R. J. TAYLOR, Agent.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivaled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all secrete and nervous affection. It smooths and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for BARTHOLICK's Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also.

By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.

I will give them the most positive and pleasing evidence of what I say; still more, I will not urge them with undue persuasion to purchase what they do not want.
